CAS – Near term actions/outcomes

Exercise the Management Systems (January)

- Extramural Assurance Council meetings (60-90 minutes each) with groups of two Management Systems with discussion to focus on:
    1. Primary requirement drivers
    2. Primary interface points with other Management System's (interdependencies)
    3. KPIs (FermiDash development)
    4. Feedback from key assessment activities (internal, external)
    5. Critical vulnerabilities
    6. Service delivery innovation and improvement
